1. About Learner Connect

In the era of learning, Technology has evolved. Teaching and learning have moved tremendously into the digital world, slowly replacing the traditional classroom system. Moreover, Covid 19 pandemic has demanded the drastic changes, in business, programmes, protocols, schools and governmental procedures. E-Learning has become the most effective tool to support most of these systems especially in Education.

Learner Connect is a professional tool that allows educators to connect with their students and help you to organize your work, research trends, create course content, network with peers, and communicate with learners. The team at Learner Connect organizes eLearning projects and helps customers with course content every day.
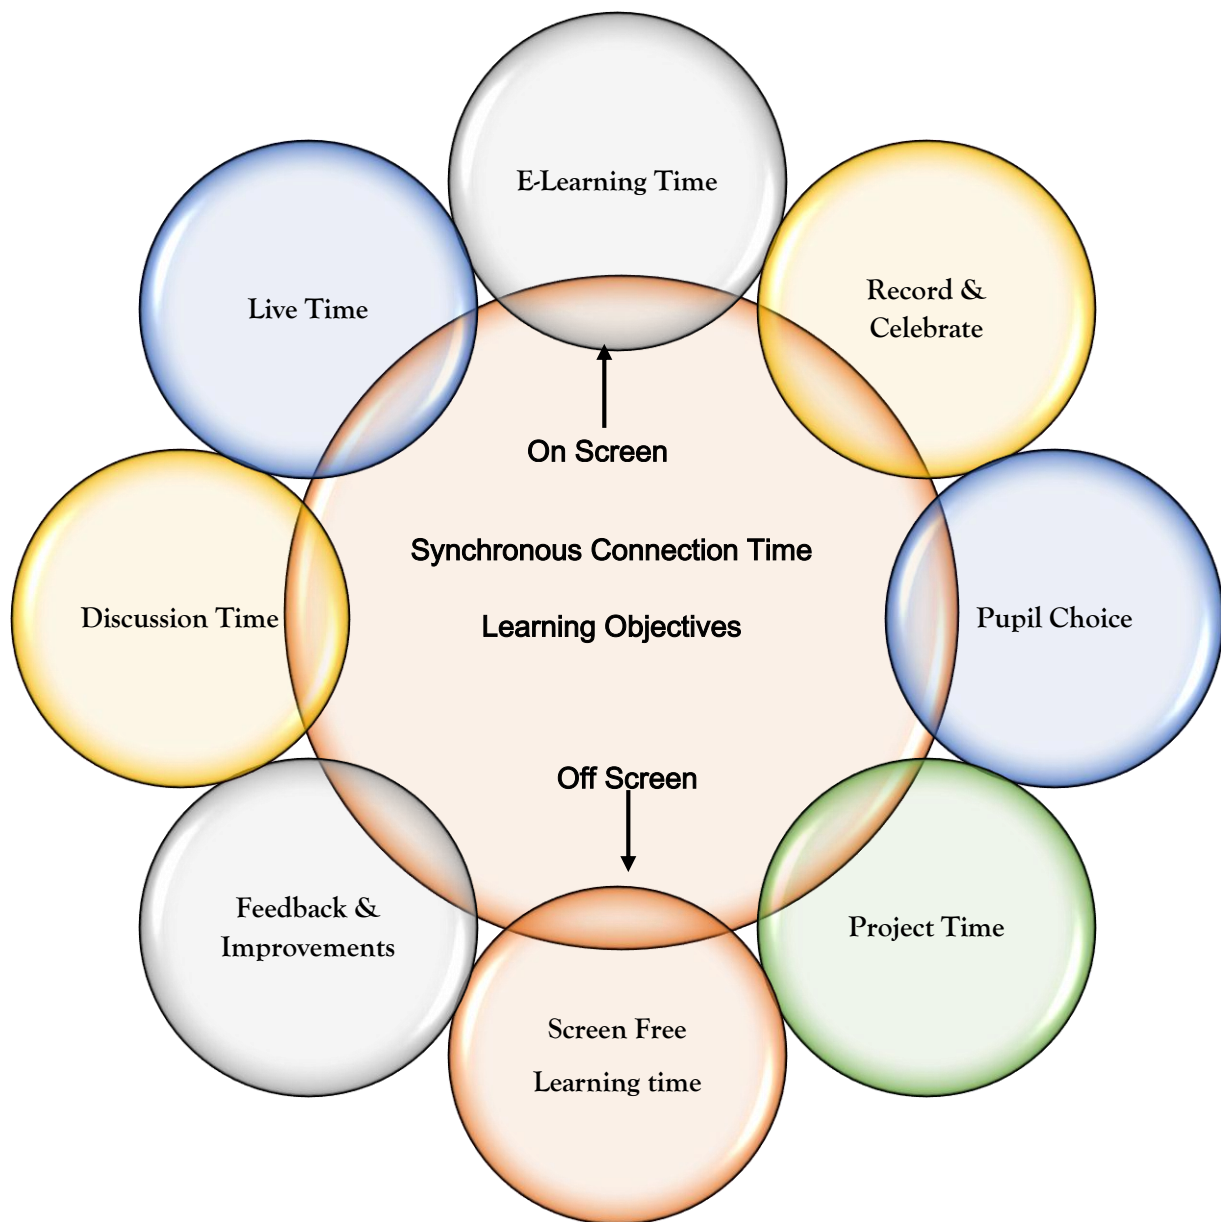

Learner Connect makes it easier to coordinate everyone's input and track the status of different tasks. We offer many methods of task management, attendance registers, boards and color-coding.

Learner Connect perfectly fits the South African school learning system, and allows educational system. This makes it easy for users to learn anytime, anywhere, with few, if any, restrictions. Which are designed by the school. Learner connect can be customized as per school requirements.

2. Benefits of Learner Connect

- Time Saving
- Cost Effective

The reality is COVID-19 can reshape the education system for better and for worse, while the sudden transition to distance learning has caught academic institutions, teachers, and learners off guard, it also offers a preview of potential long-term changes in the education system.

The current situation, however, also presents an opportunity to work on bridging the digital divide by improving connectivity, device access, and developing strategies for effective offline learning for all educational institutions.

Learner Connect believes in contributing to the changes adapted by the global education system that has affected by COVID-19.

Thank you for choosing us in making a difference in education
